

Q-Pulse®

Performing Management Review

When performing management review it is essential that you have all relevant information available and structured in a manner that enables you to bring management attention to the areas that are in need of attention and support. Failure to do so can result in missed opportunities to gain management support for initiatives to improve business performance.

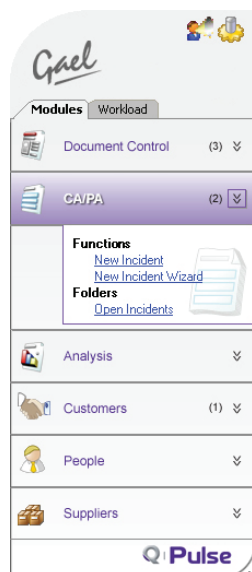

When performing Management Review in Q-Pulse it was our intention to:

- quick and simple access to data crucial for effective management review
- significantly reduce the time and effort required to prepare for management review
- ensure that reviews are effective in identifying improvements to operating performance
- ensure that reviews identify actions to enhance our reputation in the eyes of customers
- perform management review looks at the future needs of the business and establish objectives to facilitate changes

Q-Pulse achieves this by providing you with:

- central repository for all records associated with compliance and improvements
- summary information on the period being reviewed available at the press of a button
- extensive analysis capability to graphically identify areas of concern in need of closer scrutiny
- extensive trend and pareto analysis to identify biggest “bang for the buck”
- business mapping solution to gather, understand and make best use of available information to enable for effective and efficient review

The Q-Pulse solution meets each of the above objectives and in addition:

- ensures the real-time communication of all agreed compliance actions throughout the organisation
- provides watertight security – restricting or providing access to the analysis information appropriate to each individual user
- is easily deployed – one window providing point of reference across the complete compliance management system.
- is easy to use – one click away from accessing your compliance management tasks
